Allowable Subject Matter

2. Claims 1-8 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-8, the prior arts fail to teach or suggest the method of providing access networks for mobile terminals (based on ATM technology) with providing fixed VPI on traffic channel and fixed VCI on the signaling channel of the virtual connection when a mobile terminal is in roaming from one base station to another base station. The invention discloses that when a mobile terminal is in roaming, the Virtual Path Identifier (VPI) of a sending user cell or traffic channel is fixed and its Virtual Circuit Identifier (VCI) is varied, in which means it could be modified. The invention also discloses that when a mobile terminal is in roaming, the Virtual Path Identifier (VPI) of a sending signal cell or signal channel is varied, in which means it could be modified and its Virtual Circuit Identifier (VCI) is fixed, in combination with other limitations, as specified in the independent claim 1.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
